

THE HEALTH RESTORATION SYSTEM

The **Health Restoration System** is a unique approach to achieving and maintaining optimal health .

Today in North America and the rest of the western world, the priority in health care is to help people after they are already sick. That is a backwards approach to health care, and it is why we are getting sicker and sicker. Recently a medical researcher stated it plainly, **“We are not living longer we are dying longer.”** In other words, we have the capacity to keep people alive for longer and longer durations, but the majority of these people do not have a good quality of life. They cannot do most of the things that would allow them to live fulfilling lives.

Wouldn't it be great if we could work at staying healthy, instead of waiting to get sick? What if we could roll back the biological clock on the average person ? What if 50 really was the new 40? Or 60 was the new 50?

What if we could set up a system to allow you to do things at the age of 50, that you thought were impossible to do at the age of 40, or 30 for that matter?

That is exactly what the **Health Restoration System** is designed to do. We are here to help you live longer and healthier, not die longer!!

How does the **Health Restoration System** work?

1. DISCOVERY – HEALTH DANGERS

Unique questions will lead to new answers.

We will begin by looking at the current state of your health and wellness. In essence, how are you doing right now? We will also ask you some detailed questions about your **history** and your **family health history**.

It is important to understand that your current health problem started years ago and was multi-factorial in origin. The only exception would be an acute trauma like a car accident or severe sports injury. Even with acute traumas the extent of the injuries is most often dependent on your health before the accident. Your answers to the following questions offer up clues to what dangers your body is currently encountering and will give us a base line for comparison to future outcomes.

2. THE DISEASE CAUSATION ANALYSIS

We will explore which lifestyle factors are affecting your overall health and your ability to live fully alive. It is a well-known fact that 80% of the risk factors for the two most feared killers; heart disease and cancer, are lifestyle related. The same is true for the majority of chronic illnesses affecting patients today.

Lets get started in understanding your problem and finding a solution.

BIRTH TRAUMA was your delivery

Difficult Forceps C-section

Epidural Suction Resuscitation

DISCOVERY - HEALTH DANGERS

WHAT IS YOUR PRESENT HEALTH CONCERN?

How long have you had this condition?

Have you had a similar condition in the past?

What activities aggravate your condition?

What relieves your condition?

Are you getting pain or numbness in your arms or legs?

Is your condition getting progressively worse?

Yes No It's constant It comes and goes

Pains are: Sharp Dull Burning

Tightness Throbbing

Pain severity (mark on the line, 0 no pain; 10 most severe)

010

How is this condition interfering with your life?

Work Daily Routine _____

Other doctors) who treated this condition:

FAMILY HEALTH PROBLEMS?

MARK WITH AN X ON THE DIAGRAM ANY PAST OR PRESENT PAIN OR PROBLEMS AND CHECK THE APPROPRIATE CIRCLE BELOW:

- Headaches Facial pain
- Vision problems Hearing problems
- Shoulder: Pain / Numbness / Tingling (circle)
- Arm: Pain / Numbness / Tingling (circle)
- Hand: Pain / Numbness / Tingling (circle)
- Hip: Pain / Numbness / Tingling (circle)
- Knee: Pain / Numbness / Tingling (circle)
- Foot: Pain / Numbness / Tingling (circle)
- Neck Pain
- Upper Back Pain
- Middle Back Pain
- Low Back Pain
- Sacroiliac Pain

OTHER HEALTH PROBLEMS?

DISCOVERY - HEALTH DANGERS

PLEASE CHECK ANY OF THE FOLLOWING SIGNS OF ORGAN MALFUNCTION OR DIS-EASE YOU HAVE EXPERIENCED:

- Blurred /failing vision
- Deafness /ringing in ears
- Earaches
- Sore throat /tonsillitis
- Thyroid problems
- Sinus problems

Cardiovascular system

- Chest Pain
- Shortness of Breath
- Heart Medication
- High Blood Pressure Medication
- High Cholesterol Medication
- Swelling of Legs

Respiratory system

- Frequent bronchitis
- History of pneumonia
- Chronic cough
- Spitting up phlegm /blood
- Difficulty breathing
- Tuberculosis
- Pneumonia

Digestive system

- Heartburn / indigestion
- Stomach Cramps
- Constipation /diarrhea
- Food Allergy
- Irritable Bowel Syndrome
- Crohn's Disease
- Ulcers
- Belching /gas
- Nausea or vomiting
- Liver /gall bladder trouble
- Colon trouble
- Black /bloody stool

Musculoskeletal system

- Painful Joints
- Painful Muscles
- Tendinitis
- Bursitis
- Arthritis

Females Only

- Painful menstruation
- Cramps or backaches
- Passed menopause
- Currently pregnant? Y N

General Symptoms

- Fever / chills / sweats
- Frequent colds
- Fainting / dizziness
- Seizures / convulsions
- Headaches /migraine
- Neck pain /stiffness
- Tension across shoulders, L R
- Mid-back pain /stiffness
- Numbness /tingling: hands /arms

General Symptoms

- Skin problems
- Tremors
- Loss of balance
- Unexplained weight loss/gain
- Anemia
- Alcoholism
- HIV/AIDS
- Loss of sleep
- Poor memory /concentration
- Learning disability
- Irritable /nervous /tension
- Depression /emotional problems
- Decreased energy / fatigue
- Tired /lethargic
- Autoimmune Disease
- Antibiotic Use
- Cancer: _____
- Allergies / Asthma
- Scoliosis / spinal curvature
- Low back pain / stiffness
- Faulty posture
- Painful tailbone
- Foot trouble, L R

How has your condition affected your quality of life? _____

How has your condition affected you emotionally? _____

How has your condition affected your family life and/or relationships? _____

If left uncorrected, how do you see your condition affecting your life over the next 1-5 years? _____

If you are a candidate for spinal reconstruction and if we were having this conversation 12 months from today, what has to happen over that time to make you feel happy with your progress? _____

What is your greatest motivation (other than pain) for seeking out a solution for your condition?
(Mobility, quality of life, family, participation in sports, etc.) _____

Do you believe that this condition can improve? _____

DISEASE CAUSATION ANALYSIS

EXERCISE

Do you participate in aerobic exercise at least 30 minutes per day?

- 0 days /week 1-2 days /week
- 3-4 days /week 5-7 days /week

Do you lift weights or do resistance training?

- P90x
- Crossfit
- Gym
- Other _____

What activities are you involved in that require balance?

- _____ None

How often do you stretch per week?

- 0 days /week 1-2 days /week
- 3-4 days /week 5-7 days /week

EMOTIONAL STRESS

Are you currently experiencing, or have you ever experienced significant stress in the following areas?

- Marriage _____
- Kids _____
- Finances _____
- Work _____
- Elderly Parents - Caregiver _____
- Recent Major Life Events (births, deaths) _____

FAMILY HEALTH HISTORY

What significant health concerns have your family members experienced?

Parents / Siblings: _____

Spouse / Partner: _____

Children: _____

CHEMICAL STRESSES: NUTRITION

Do you feel that you make healthy food choices?

- Yes No Don't Know

Do you have a high intake of fruits and vegetables?

- Yes No Don't Know

Do you have a high intake of lean meat for protein?

- Yes No Don't Know

Are you at your ideal body weight?

- Yes No Don't Know

CHEMICAL STRESSES: TOXIC LOAD

Do you presently, or have in the past:

- Smoke? Carry excessive weight?
- Consume Alcohol? Take recreational drugs?

MEDICATIONS

For what condition(s)? _____

SURGERIES

For what condition(s)? List (year performed) _____

January 1st of each year there will be an annual cost of living increase in the fees rounded to the closest dollar.

There is a \$30.00 minimum fee for the reproduction and/or forwarding of a file to another practitioner.

Financial Policy and Chiropractic Active Life Plans

We are committed to providing you with the best chiropractic care possible in a caring environment and have established our financial policies to achieve that goal. **You will be expected to pay for your chiropractic care at the time the service is rendered unless you arrange an Active Life Plan in advance.** These Active Life Plans are designed to be the most cost-effective way to keep you and your family as healthy as possible. They include your Symptom Care, Corrective Care and Supportive Care options. Details of these plans will be discussed with you during your Report of Findings.

- **Benefits / Insurance:** If you have insurance that covers chiropractic, we will give you all of the information you need to get reimbursed quickly. This includes your diagnosis, prognosis, and copies of your records or reports. We have found it is easier for your record keeping, and ours, if we give you receipts at the end of your first visit and then once a month after that. Just send in your receipts with a copy of your claim form and your insurance company will communicate with you about your reimbursement. Remember, your agreement with your insurance company is between you and them.

If a special situation arises, such as an auto accident or a worker's compensation injury and you choose to utilize that coverage, a new examination will need to be performed and you will be charged our regular office fees until such claim is settled. We will help you get reimbursed quickly on these claims. Depending on the situation, we may bill the insurance company directly. Once the claim is complete, your active life plan will be re-activated.

I have read and I understand the above policies.

INFORMED CONSENT TO CHIROPRACTIC EXAMINATION

There are risks and possible risks associated with chiropractic examinations used by Doctors of Chiropractic and their staff. In particular you should note:

- While rare, some patients may experience short term aggravation of symptoms or muscle and ligament strains, sprains as a result of their examination.

I acknowledge that if I choose not to consent to all and/or part of the examination I will have ample opportunity to discuss with the doctor further options. I also understand that without a thorough examination, no treatment will be provided to me. I have read this consent and I have discussed, or have been offered the opportunity to discuss, with my chiropractor the nature and purpose of chiropractic examination in general, options and recommendations in particular for my condition.
