PARENTAL INFORMED CONSENT TO CHIROPRACTIC EXAMINATION

There are risks and possible risks associated with chiropractic examinations used by Doctors of Chiropractic and their staff. In particular you should note:

- While rare, some patients may experience short term aggravation of symptoms or muscle and ligament strains, sprains as a result of their examination.

I acknowledge that if I choose not to consent to all and/or part of the examination I will have ample opportunity to discuss with the doctor further options. I also understand that without a thorough examination, no treatment will be provided to my child. I have read this consent and I have discussed, or have been offered the opportunity to discuss, with my chiropractor the nature and purpose of chiropractic examination in general, options and recommendations in particular for my child's condition.
